

Berke Muftuoglu

OBJECTIVE

A computer science guru who loves teaching, sports, public speaking and is a big fan of teamwork. Looking for opportunities where I can further develop my technical skills through taking on new challenges and use my social skills.

EXPERIENCE

Graduate Teaching Assistant

September 2022 - *Present*

King's College London | London, UK

- Teaching 5CCS2PLD: Programming Language Design Paradigms which teaches most significant constructs of modern imperative, functional and logic programming languages.

Engineering Intern

May 2022 - July 2022

Getir UK | London, UK

- Working in the Payments department under Reconciliation Division. Migrated months of data. Migrated Getir's millions of data and contributed to the design of the new System.
- Part of a project that immigrates from a Spring boot software to a .NET microservices product, took part in every step of the product development. I focused on Agile Development and writing clean code.

Web Developer Intern

November 2020 - December 2020

Frelens | Istanbul, Turkey

- [Frelens.com](https://frelens.com) was a startup with the aim of finding find jobs for Turkish university graduates.
- I contributed to the development of the website by working with the side with the project's head software engineer. Conducted Blackbox testing, created the UI/UX design and fixed some bugs on backend related PHP files.
